Resolved that the accounts be passed.

2. Read and recorded—

(1) Proceedings of Government No. 4446-S—L. F. 141-92, dated 9th September 1893, sanctioning 4 scholarships for midwives and raising the civil charges for the year 1893-94 by Rs. 480.

(2) Proceedings of Government No. 2003-13—L. F. 346-92, dated 3rd August 1893, sanctioning the payment of travelling allowance to Official and Non-Official Members attending the meetings of the Board.

3. Read Executive Engineer's No. 246, dated 17th June 1893, forwarding for opinion certain correspondence relating to the construction of roads connecting (1) Anaji with Davangere and (2) Kōl-tur with Davangere.

*Resolved*—Mr. Ranga Rao, dissenting on the sole ground of cost) that it is highly desirable that Anaji should be connected with Davangere. As regards the other road, 4 miles of it lie in Mysore and 14 in British Territory.

*Resolved*—that if the British authorities are prepared to make their portion of this road, this Board would be glad to make the Mysore portion of it. The 1st of these resolutions obviates the necessity of making a Railway feeder from Anaji to Kodaganur. The proposed road from Bidarkere to Bhārmāsagar is not likely to be of much use and need not consequently be made. A separate report will be made to Government on this subject.

4. Read Appendix 3, Enclosure B, of Proceedings of Government No. 17337-41—L. F. 111-92, dated 22nd April 1893, sanctioning the District Fund Budget of the Chitaldroog District for 1893-94.

*Resolved*—The only bridge proposed to be built on the Hosdurga-Tarikere road is a large one estimated to cost Rs. 10,000. The Board is too poor to bear this heavy burden. The rest of the bridges on that road in the Kadur District were built from Local Funds General. A similar concession will be prayed for in respect of this bridge. As a District Fund work, the Board finds itself compelled to resolve upon its abandonment, likewise the proposed construction of a few small bridges on the Holalkere-Huliyar road will have to be abandoned for the present for want of funds. A separate communication will be addressed to Government in respect of these two items of work.

5. Read Proceedings of Government No. 5160-68—L. F. 88-93, dated 19th September 1893, sanctioning an allotment of Rs. 15,000 to each of the Districts from Local Funds General.

*Resolved*—that proposals for the utilization of this grant be made as per lists appended.

6. *Resolved*—that the Board do place on record its appreciation of the very valuable services rendered to it by Mr. Ranga Rao, Executive Engineer, who now stands transferred to the Kadur District.

Statement showing the details of works proposed to be undertaken in 1893-94 in the Chitaldroog District out of the grant of Rs. 15,000, sanctioned for this District from Local Funds General in Proceedings No. 5160-68—L. F. 88-93, dated 10th September 1893.

No.	Taluk.	Village.	Description of Works proposed to be executed.				Deputy Commissioner's opinion on each Work.
			Name.	Necessity or Usefulness.	Approximate cost.	Contribution expected.	
1	Chitaldroog	Ballekatte	Sinking a drinking water well.	Owing to the submergence of the present village by the restoration and enlargement of the Katarahal Tank, a fresh site has been selected for removal of the village. A new well has to be sunk for the use of the inhabitants of the village in place of the one which will be submerged.	500	100	This work is necessary. The contribution promised by the raiyats will be in labor and materials.
2	Do	Karadigarabatti	The restoration of an abandoned well or the construction of a new one.	The want of water is much felt and has now to be brought from a distance of nearly half a mile.	300	50	There is pressing need for a well in this large and populous village.
3	Do	Bhimasamudra	Construction of a Gokatte.	The present village being very unhealthy, a fresh site has been selected for its removal and reconstruction. A good drinking water well has been constructed on this new site by one of the inhabitants of the village. To supply the needs of cattle as well as for other than drinking purposes a pond or Gokatte is necessary. The owner of a small Sagavali Katte has made a present of it for this purpose. It requires to be deepened and revetted and otherwise improved.	500	100	This work is necessary.
4	Do	Chitaldroog to Turuvanur.	Improvement of cart track.	The present cart track is in an unsatisfactory condition. It requires to be improved for the benefit of the villages lying a longside of it as well as of the heavy traffic that passes over it.	1,500	500	This is an important cart track and is in great need of improvement.

No.	Taluk.	Village.	Description of Works proposed to be executed.		Necessity or Usefulness.	Approximate cost.	Contribution expected.	Deputy Commissioner's opinion on each Work.
			Name.					
5	Chitaldroog	Chitaldroog	Bandy stand outside Municipal limits.	The present bandy stand is not only out of repairs, but is also badly situated. It stands in the way of the extension and improvement of Santepe and also makes that locality unhealthy. Its removal to a place outside Municipal limits is therefore necessary.	300			Hundreds of carts pass through Chitaldroog on their way to and from Bellary and other places. It is for such carts that the proposed stand is intended. Its early construction is desirable.
6	Do	Kelgate	Park	The Public Offices are situated in the village of Kelgate and far outside the limits of Chitaldroog Municipality. There is a large maidan—all round these offices. It is overgrown with weeds and is unsightly in appearance. It is proposed to clear the ground and level it and partly plant it up. This would be useful not only to the town's people but also to people from Taluks who resort to public offices on business. For the latter there is at present no shelter.	500	100		This is a work of pressing necessity. The town of Chitaldroog being partly interested in it, the Municipality is prepared to contribute Rs. 100 towards its cost. In addition to this contribution, a valuable piece of ground has been presented for the purpose, by one of the leading inhabitants of Chitaldroog.
7	Holkere	Pampapur	Repairing a Gokatte.	This Gokatte being out of order, cattle and men suffer much for want of water.	500			This is a useful work and should soon be undertaken.
8	Do	Baniagondanahalli	A Mantapam for travellers.	This village is about 11 miles from Chitaldroog and is midway between that town and Holkere. There is no accommodation for travellers here.	750			There is heavy traffic between Chitaldroog and Holkere. The want of a halting place is much felt. There is at present no Musafarkhana here. A small Mantap on the road side and within convenient distance of a good drinking water well which is now being repaired is necessary.

9	Hiriyur	..	Hiriyur to Darampur.	Improvement of cart track.	Dharampur is the Head-quarters of the Samat. There are several populous villages between it and Hiriyur. Heavy traffic passes over this tract which is at present in an unsatisfactory condition.	1,000	..	This is a much used cart track and its early improvement is desirable.
10	Davangere	..	Hunsekatte	Restoration of a well	There is an old descending well in this village. It contains good potable water. The revetment has completely collapsed and the well has become almost useless. The inhabitants are thus put to much inconvenience.	868	100	The early restoration of this well is necessary, as the want of drinking water is very much felt in this village.
11	Do.	..	Mayakonda	Improvement of a cart track or approach to the Railway Station from the village.	This is a large village between which and the Railway Station, there is no road. In the interests of the people and traffic resorting to the station, this work is necessary.	300	..	This is a useful work and should be taken on hand soon.
12	Hunjur	..	Gollarhatti	Restoration and improvement of an old well.	This village suffers much for want of good drinking water.	500	100	The well in question is out of repair and has become almost completely silted up. It is necessary to have it restored as early as possible.
13	Do	..	Javanagondanahalli	Repairing a descending well.	This is a large well, but is very much out of repair. It is extensively resorted to by the inhabitants of this village.	400	..	This is a useful well and requires early repairs.
14	Jagalur	..	Huchingipur	Sinking a drinking water well.	The inhabitants of this village are badly off for water which is now procured with difficulty from a great distance.	250	..	Want of water being much felt, the excavation of the proposed well is necessary.
